*Helping families train  
their Children  
for Christ*

## OUR MISSION

To inspire a well-rounded education that prepares the students academically, emotionally, and socially for a smooth transition into college or what the Lord has in store for them..

Our objectives are:

1. To train children spiritually, academically, and practically while preparing them to be available for God and be used for His glory.
2. To maintain a spiritual haven of education free from sinful and worldly influences.
3. To assist Christian families in their biblical command to train and teach their children.

We are not attempting to raise children for families but to assist them in the training.

*“ I have no greater joy than to hear that my children walk in truth” 3 John 1:4*

## HISTORY

City Baptist Academy now ( North Jersey Baptist Academy) opened its doors in September 2014. Since then we have grown and expanded our locations. This unique school is available to a select group of students from families that are seeking to live by the statutes set forth in the Word of God.

North Jersey Baptist Academy is run by a board of Pastors and Deacons that govern the operation of the Academy. There has been a positive effect on the students' academic performance.

### BOARD

Pastor Mike Dinges and Deacons of Peoples Baptist Church.

*Proverbs 11:14 - where no counsel is the people fall: but in the multitude of counsellors there is safety.*

### STAFF

Since its inception, the Academy has actively recruited parents to serve as helpers and staff. We have experienced significant success in terms of achieving a quality of instruction and commitment without conflicts. Parents are deeply committed to the school and its mission.

As a further indicator of the academy's commitment to the best interest of the students, funds are allocated for full time staff primarily assigned to meeting the educational needs of the students.

The City Baptist Academy full time staff is committed to the children. Their inspiration is largely one of a sense of “calling” and because of this motivation, they are the primary reason for the success of the school.
